

# FUN FOR YOU & BABY

TIPS FOR INFANTS

## **Pop It In:**

Children like discovery and stimulation. Stick a few toys in and around an empty tissue box, plastic bowls or plastic widemouth jug and allow baby to explore.

## **Little Drummer:**

Surround baby with pots or buckets and let them bang away with a large spoon.

## **Sensory Tunnel:**

Get a few large cardboard boxes and poke long socks to hang for baby to crawl through.

## **Water Play:**

Fill small jars with colored water for baby to hold or shake, increasing recognition of vocabulary and color. Let the splash fun begin with just a little bit of water in tub or baby pool.

## **Painted Memories:**

Paint your child's foot or hand with a non-toxic acrylic paint and stamp on card, canvas or shirt. Create a flower or animal. Frame, store in keepsake box or gift.
